

**CHANGES MADE  
for rev 2**

- R1 change to 5.6K energy saver without loss of function
- R2 at 100 ohms fires off Q4 at 34v
- R16 keep Q4 from failure
- Q3 found not needed with addition of R16
- ZD2 17v is what i had on hand will change when go shopping
- R11 changed per Nityesh's findings
- C3 changed per Nityesh's findings

<b>Linear Amp Regulator</b>		
<b>Modified Nityesh Schematic</b>
